

UraniumBackup
by Nanosystems

THE COMPLETE AND VERSATILE BACKUP SOFTWARE

DEVELOPED FOR COMPANIES AND IT PROFESSIONALS

CHOOSE SECURITY AND VERSATILITY

Today many companies have complex IT infrastructures and the need to protect them with simple and reliable backup systems.

Uranium Backup is a complete solution that allows you to create copies of files and folders, disk images, Exchange mailboxes, databases and virtual machines to many types of local storage, in the cloud and via FTP.

SIMPLIFY DATA PROTECTION

One solution for protecting data on Windows machines (physical and servers) and VMs (with host VMware ESX/ESXi and Hyper-V).

Simplify your cyber risk management with an intuitive interface that lets you easily configure backup sets, scheduling, encryption, and many other options.

The Console web application lets you monitor the health of connected PCs, remotely initiate backups, and review their results.

CHOOSE URANIUM BACKUP. YOU'RE IN GOOD COMPANY

**100K ACTIVE
PROFESSIONAL DAILY USERS**

**DISTRIBUTED
IN 120 COUNTRIES**

**AVAILABLE ONLINE
SINCE 2006**

WHY URANIUM BACKUP?

- ✓ all-in-one data protection
- ✓ ease of use and wide customisation possibilities
- ✓ centralised administration via web Console
- ✓ simple licensing
- ✓ get recurring profits through the Console

PROVEN RELIABILITY

Configure multiple backup modes to protect virtual, physical, and cloud environments from ransomware, outages, and accidental data loss

CENTRALISED MONITORING

Offer a complete cybersecurity service: the Console allows centralised and rapid management of all backup sets configured with Uranium Backup

SIMPLE LICENSING

Tired of studying complex licenses? Our policies are simple, and becoming a reseller gives you several interesting benefits

SECURE VIRTUALISATION

Among VM backup software, Uranium Backup is one of the most convenient and efficient solutions on the market for VMware ESX/ESXi and Hyper-V hosts

THE RESELLER PROGRAM

Transparency and no constraints.

Joining the program is completely free and does not require any kind of registration fees. Also, you should not enter into any exclusive or binding agreement for the sole resale of Uranium Backup.

Resellers also benefit from competitive pricing and periodic special offers.

Starting with a basic discount, you can achieve volume and progressive additional discounts based on revenue generated.

Resellers have a dedicated Reserved Area to activate and manage licenses, as well as marketing materials to promote the software to end customers.

Uranium Backup comes with support and updates.

Information resources such as tutorials, videos, and FAQs are available to share with the customer.

An important aspect of the licenses is the ability to activate them at any time under the "buy today, activate when you want" model.
